Questions 

Hi Yunus,

Please see comments below.

Best Regards,

Jacques LORQUIN

-----  
Please address the following issues for this application ,

1. User's manual mentions a GSM/GPRS option. Does this device include a GSM/GPRS module? Please clarify.

The product can be available with several option, but the equipment tested is a EFT930S with only Modem V32bis option. The EFT930S with GSM option is not sold in USA.

2. Test report refers to model EFT930S, instead of the model EFT930SM (with modem), which appears to be what this application is for. Please clarify.

The test report refers to the model **EFT930S with option modem** (see line product: page 1 of the test report). The other reference can be **EFT930SM**. both references are equivalent.

Best Regards,

Jacques LORQUIN
